

**NEW**

# VSM<sup>®</sup> CERAMICS POWER-VITEX XK888Z TOP SIZE

- Faster machining
- Very high stock removal
- Very long belt life
- Cool grinding

# VSM XK888Z TOP SIZE

## VSM® CERAMICS POWER-VITEX

The new VSM® CERAMICS POWER-VITEX XK888Z achieves an extremely high stock removal and belt life due to the outstanding cutting performance. VSM XK888Z TOP SIZE is yet another VSM high-quality product from the VSM® CERAMICS product range. These new abrasive belts have been especially developed to generate the highest stock removal on automatic grinding machines.

### Faster machining, less machine breakdowns

- due to the outstanding cutting performance
- due to the especially improved size coat

### Very high stock removal

- due to the extremely aggressive cutting performance
- due to the extremely sturdy polyester cloth

### Very long belt life

- due to the self-sharpening VSM® CERAMICS grain

### Cool grinding

- due to the state-of-the-art TOP SIZE layer to reduce heat
